The purpose of the Apollo Accelerator Program is to accelerate the development and implementation of standards for electronic data exchange of expressions of scientific research and clinical guidance, and thus accelerate the use of computable evidence and computable recommendations.

Apollo Accelerator Members will contribute to the development and use of a Foundation for Organizing Re-usable Communication of Evidence (FORCE) Toolkit which is modular software for data entry, data transformation, data management, and data access (search, display, export) for standards-based computable evidence and computable recommendations.

The minimum contribution is the membership fee (used primarily to support development) and feedback on the implementation and use of the FORCE Toolkit.

Please describe your expected or desired use of the FORCE Toolkit:

Please describe any other non-financial contributions you expect to provide for the Apollo Accelerator Program:

Please provide the names of individuals who are expected to represent Member as participants in Apollo Accelerator Program activities, including voting on matters relevant to the program and submitted to member voting:

Please list any intellectual property (including patents, trademarks, service marks and copyrighted works) owned or licensed by the applicant that, in your reasonable judgment, could be relevant to or conflicting with the Apollo Accelerator Program:

Please list any services that you desire to make available to other members of the Apollo Accelerator Program, and related terms (e.g., Content Processing Service X at 25% discount, Consulting Services Y with 10 hours at no charge, etc.):

The Apollo Accelerator Program terms and fee rates are the same for all Apollo Accelerator Program participants as it provides pre-competitive and collaborative infrastructure support for commercial and noncommercial members. Membership fees are based on for-profit status and annual revenue.
