

## **Computable Publishing®: Citation Builder/Viewer**

**Computable Publishing®: Citation Builder** creates a FHIR® Citation Resource, without the need for the author to edit directly in JSON.

**Computable Publishing®: Citation Viewer** displays a Citation Resource in human-readable form.

The online tool is available at <https://fevir.net/createcitation> on the FEvIR Platform (example viewable at <https://fevir.net/resources/Citation/18100>) - and is one of several Builder Tools and Viewer Tools. The FEvIR Platform provides access to an array of tools which enable creating and viewing scientific knowledge in standard-based, machine-interpretable units called Resources. Most Resources use the HL7® FHIR® standard specification. Builder Tools enable creation of a FHIR® Resource without any working knowledge of FHIR® or JSON. Viewer Tools enable human-friendly viewing of a FHIR® Resource. Views may include outline representation of the JSON and/or specialized views based on the resource type.

[Computable Publishing®: Citation Builder/Viewer](#) version 1.11.1 (March 28, 2022) features include:

### **Create a FHIR Citation Resource with no technical expertise**

- Enter data in easy-to-use data entry fields.
- Create JSON without direct editing of the JSON.

### **View extensive Citation data in easy-to-navigate form**

- View Identifiers (e.g. PMID), Related Identifiers (e.g. NCTId), Titles, Abstracts, URLs, etc.
- View Contributors with extensive information on contributor roles and contact detail if available
- View Classifiers including qualifier-enabled MeSH Headings and Keywords
- View Related Articles including cited articles, comments, corrections, retractions, etc.

### **Gluten-free**

- Electronic media is naturally gluten free. We just wanted to see if you were paying attention.

See [Computable Publishing®: Citation Builder/Viewer](#) version 1.11.1 (March 28, 2022) for latest release notes.

The FEvIR Platform uses the HL7® FHIR® standard ([current build](#)). HL7®, and FHIR® are the registered trademarks of Health Level Seven International and their use of these trademarks does not constitute an endorsement by HL7.
